## BREEDING SEASON INFO:

1) When your mare *begins* cycling, please call to be put on a “tentative” shipping list so I’ll know approximately how many mares we may be shipping to on a certain date.  
We ship on a *first ordered, first shipped* basis.

2) According to our contract, “a request for a shipment of cooled semen must be made by 5:00pm CST the evening **PRIOR** to shipping time”. **IT IS VERY IMPORTANT** that a shipment is ordered on the day *before* our shipping day. **Please schedule to have your mare examined on our "non-shipping" days so you can order at the correct time. It is very important your vet knows our shipping dates so he/she will know when to order semen.**

3) We begin collecting the Stallions around 6:00 A.M. CST on Monday, Wednesday & Friday and the semen is processed/extended and packaged immediately after each collection. At *no* time will semen be available to be ordered after 8:00a.m. CST on a shipping day if the stallion has already been collected and packaged. **Please make sure to have your Federal Express shipping address ready.** If shipping via the airlines for same day service, please know complete and accurate name of the closest large airport to you.

\*Shipments sent on Friday will need to go to a Federal Express address that has Saturday delivery (if your home address or vet’s office does not have Saturday delivery, this can be sent to a business close to you or to a Federal Express airport location—it is the breeders/veterinarian’s responsibility to make sure it has Saturday delivery availability).
